

CACFP Review

TREC took part in a CACFP review in May 2024, a crucial step for maintaining compliance with federal and state regulations regarding nutrition and food services in our facilities. This review was conducted in Lemmon and Bison, South Dakota. TREC successfully completed the evaluation, making two necessary corrections concerning production and outside vendor records. These corrections were implemented in early September 2024, ensuring TREC's full compliance with all relevant regulations.
